We're seeing that as well. We just had a talk with our OSCs and will do so again tomorrow. This stuff cannot be out there before we make the proper notifications as you know. Thanks for the heads up.

Great. Honestly – I have been seeing your announcements after they go out without advance notice. I don't see the coordination with me or Region 9 so far. I know we are busy and rushed but it isn't coordinated.

I won't do any notification without working with you on it. Promise!

Thanks.

Thanks Rebecca. I am cc'ing you on my emails to our delegation. Sorry for the short notice but Region 8 already made the materials public on the website without pre-notification to members. I presumed that you had already notified Region 8 delegation.

David

David,

Before you send out information, please coordinate these releases to Congressionals with me and Region 9, so we're coordinating the information we send out and one Congressional delegation isn't getting information another isn't. Everything needs to go through Incident Command before it goes out to Congressionals.

Thanks,

Rebecca

Subject: RE: Gold King Mine spill - CLAIMS Process Released

A process exists for compensating citizens who suffer personal injury or property damage caused by US government actions. The process is available in EPA's regulations at 40 CFR Part 10, and includes guidance on documentation that may be required to support claims for loss of employment and loss of income, among other claims.

Claims for monetary compensation may be filed by submitting a Standard Form 95 specifying the nature of the loss suffered and the EPA actions, if known, causing the loss or damage to property, to either of the following contacts:

Richard Feldman
Claims Officer
U.S. EPA Office of General Counsel
1200 Pennsylvania Avenue, NW (MC 2399A)
Washington, D.C. 20460

Michael Nelson
U.S. EPA Region 8 Office of Regional Counsel
1595 Wynkoop Street (MC 8RC)
Denver, CO 80202

Alternatively, claimants may submit signed electronic versions of Standard Form 95 to EPA for the Gold King Mine Release via e-mail at R8_GKM_Claims@epa.gov beginning Tuesday, August 11, 2012.

The fillable PDF version of Standard Form 95 is available in the documents section of this website or via the link below:

<http://www.epaossc.org/sites/11082/files/StandardForm95.pdf>

Standard Form 95 is used to present claims against the United States under the Federal Tort Claims Act (FTCA) for property damage, personal injury, or death allegedly caused by a federal employee's negligence or wrongful act or omission occurring within the scope of the employee's federal employment.

Standard Form 95 is not required to present a claim under the FTCA, but it is a convenient format for supplying the information necessary to bring an FTCA claim. Please note that a completed form must state a claim for money damages in a "sum certain" amount (that is, a specific amount) claimed for personal injury, death, or injury to or loss of property. In addition, if a sum certain is not specified in Standard Form 95 block 12d, or in accompanying information, a submission cannot be considered a valid presentation of a claim.

Although EPA's regulations state that the EPA has 6 months to resolve a claim, the Agency will make every effort to respond to Gold King Mine spill claims as soon as possible. Claims must be presented to the EPA within two years after the claim accrues.
